Nano for Everyone!!

Products Carwash Chemicals
The right chemicals ...

**Stain Remover**
30 Liter
WSRED30L

This fully biodegradable stain remover is made with superior synergy of environmental friendly acids to boost cleaning performance and for potential cost-savings suitable for mineral removal from glass steel, plastic and many other materials. Finally one that works, and what's safe for your skin.

**Steril Cleaner**
30 Liter
CLEAN030L

Steril Pre-treatment Cleaner is a 100% sterile mixture, what forms with other ingredients and on basis from new technology for a well prepared and more binding surface by opening the pores.

**Si-Nano Protect®**
30 Liter
SIPR030L

Si-Nano Protect® bonds molecular and semi-permanent onto painted and nano-coated surfaces, and is designed to prevent water spots, acting as a glossy hydrophobic protective layer and will last for multiple months with just one application.

**Si-Nano Vision®**
30 Liter
SIVI030L

Si-Nano Vision® is an extremely high tech ceramic sealer that is especially designed for coated and non-coated car glass surfaces. 30% better visibility in raining conditions, what leads to enhanced safety.
Reactivating Shampoo is a high tech shampoo that is especially designed for today's high performance carwashes. This Shampoo is free from polymers and wax and colouring chemicals and is safe to use also for interior cleaning.

Nanowash is adding a glossy super hydrophobic layer while washing your car. After rinsing with water the car dries 80% faster, and leaves less dry rings behind. Can be used manual or in an automatic carwash and is suitable for coated and non-coated cars. It gives customers a true nano experience which lasts between 2-4 weeks depending on the dilution grade.

This high-tech protector bonds a permanent and flexible nanoscale hydrophobic layer onto the leather or fabric surface. Spray the surface till it is saturated, and let the surface dry for 24 hours, you may use a hair dryer to speed up the drying process.

This Restorer is based upon an optimized UV resistant formula, which restores tires and rubber trim into their natural appearance.
If you have a plan to start using coatings, let us know!!

The leader in Durability

That our coatings are made of pure silica sand which is the most common element on earth?
