The right chemicals for the right job.

Water Spot - Stain Remover 5 L  
WSRE5000
This fully-biodegradable stain remover is made with a synergistic blend of environmentally friendly acids to boost cleaning performance and cost-savings that is perfect for use on all hard surfaces. Finally, a product that removes mineral deposits and is safe for your skin.  
Read more on page 4.

Steril Cleaner 5 L  
CLEAN5000
Steril pretreatment cleaner is a 100% sterile mixture that uses new technology to thoroughly prepare hard surfaces to form an enhanced and super-durable bond with our ceramic coatings.  
Read more on page 5.

Si-Nano Protect forms semi-permanent molecular bonds with painted and nano-coated surfaces and is designed to prevent water spots, acting as a glossy protective layer that will last for multiple months with just one application.  
Read more on page 6.

Si-Nano Vision is an extremely high-tech ceramic sealer that is specially designed for coated and uncoated glass surfaces. Repels water for 30% better visibility in rainy conditions.  
Read more on page 7.

Interior Protector “Dirt Barrier” 5 L  
SIFX5000
This high-tech protector forms semi-permanent, yet flexible bonds with leather and fabrics, leaving a nanoscale hydrophobic layer to repel dirt and liquids. Just spray the surface until saturated, and let it dry for 24 hours.  
Read more on page 9.
Higher profits with no compromises.

A high-tech shampoo that is specially designed for today’s high-performance car washes. This shampoo reactivates protective nano layers, is free from polymers, wax, and coloring chemicals, and is safe to use for interior cleaning. Read more on page 10.

Nano Wash adds a glossy super-hydrophobic layer while cleaning. It can be used for manual or automatic car washing and is suitable for coated and uncoated cars. It gives customers a true nano experience that lasts 2-4 weeks depending on dilution. Read more on page 11.

Finally, a product that gives tires a super long-lasting black luster. 100% Dry-to-the-touch tire shine that won’t wash away when it rains or during car washing. Cures to a deep shine in less than 10 minutes. Read more on page 12.

This gloss restorer uses an optimized UV-resistant formula to restore tires and rubber trim to their original appearance, providing a protective layer to maintain shine and luster over time. Read more on page 13.

Multi-Purpose Cleaner is a low-foaming formula that can be used on all interior surfaces to remove dirt and neutralize odors. It cleans effectively and leaves a nice smell behind. Read more on page 14.
WSRE Water Spot / Stain Remover
Biodegradable & gentle on skin

Product ID: WSRE5000 5 L / WSRE020L 20 L
Consumption: +/- 10ml/m²
Used for: Hard surfaces
Application field: Paint, glass, chrome, plastic, carbon fiber

This fully biodegradable stain remover is made with a synergistic blend of environmentally friendly acids to boost cleaning performance and cost-savings. WSRE is suitable for use on glass, steel, porcelain, and many other materials.

• Anti-corrosive and safe to use on all hard surfaces.
• Prevents mineral deposition and dissolves lime scale.
• GHS label: NO health hazard label or acute toxicity
• Readily biodegradable (OECD)
• Safe for all hard surfaces
• Dissolves calcium and magnesium
• Stays cleaner longer

Application: Wet the surface and wait 15 minutes so the calcium and magnesium can dissolve. For stubborn buildup, pretreat with our SCRUB cleaner.
Steril cleans every pore for perfect adhesion of ceramic layers.

CLEAN

Steril Cleaner
Pretreatment

Product ID: CLEAN5000 5 L / CLEAN020L 20 L
Consumption: +/- 75 ml -100 ml (standard car)
Used for: Preparation cleaner to open surface pores
Application field: Paint, glass, plastic, chrome, carbon fiber

Steril pretreatment cleaner is a 100% sterile mixture that uses new technology to thoroughly prepare hard surfaces to form an enhanced and super-durable bond with our ceramic coatings.

- Makes surfaces much easier and quicker to clean and infiltrates the tiniest pores to create maximal grip for high-tech coating and sealing applications
- Degreases and prepares in a single step
- Safe and economical to use
- Won’t discolor materials

Si-Nano Protect
Ceramic Sealer

Product ID : SIPR5000 5 L / SIPR020L 20 L
Thickness : 0.5 Micron
Consumption : +/- 10 ml -15 ml (standard car)
Used for : High gloss & water spot prevention
Application field : Paint, plastic, chrome, carbon fiber

Si-Nano Protect forms semi-permanent molecular bonds with painted and nano-coated surfaces and is designed to prevent water spots, acting as a glossy protective layer that will last for multiple months with just one application.

- Makes surfaces much easier and quicker to clean while reducing the adhesion of dirt and dust.
- Leaves a high-gloss surface behind that features an outstanding hydrophobic effect, staying cleaner longer.
- Cleaning intervals and the formation of water spots will be greatly reduced.
- Can also be used on unlacquered plastic and chrome parts, making the product perfect for all automotive, motorcycle, and scooter applications.
- Works great in engine compartments and to renew dashboard gloss.
- Lasts up to 3 months

How to use:

Car & motorcycle gloss & protection

NANO-CERAMIC®
THE NEW GENERATION COATINGS
NANO-CERAMIC.COM
Si-Nano Vision
Ceramic Sealer

Product ID: SIVI5000 5 L / SIVI020L 20 L
Thickness: 0.5 Micron
Consumption: +/- 8 ml - 10 ml (standard car)
Used for: Clear vision & water spot prevention
Application field: Car glass, acrylic

Si-Nano Vision is an extremely high-tech ceramic sealer that is specially designed for coated and uncoated glass surfaces.

• Makes glass much easier and quicker to clean while drastically reducing the adhesion of dirt.
• Has an outstanding hydrophobic effect, so glass stays cleaner longer.
• Reduces cleaning intervals and prevents the formation of water spots.
• Repels water for 30% better visibility in rainy conditions.
• Lasts up to 3 months

How to use:
• See page 8

Hydrophobic:
- Water & oil repellent
- Anti-water spot
- Easy to clean
- Stays cleaner longer
- Better visibility for safe driving
- Clear visor for clear vision

Easy to apply
These products can be stored for up to 24 months (in a dry, temperature-stable, dark environment)

Consumption:
Appr. 10ml-15ml for a standard size car. Not more than 2-3 trigger sprays per panel.

Ambient temperature: 5-30°C
Avoid direct sunlight and/or high humidity.

IMPORTANT:
Before you use a NANO-CERAMIC product, please make sure you wear suitable protection gear. We always recommend to use latex or nitrile gloves to make sure your hands are protected.

Applicator:

40100703

CLEANING
Clean all surfaces thoroughly with SHRE Shampoo, and use our Steril Pretreatment Cleaner as a last step to make sure that all residue and contamination is removed so the Si-Nano Protect and Si-Nano Vision can bind properly with the surface. Make sure that the surface is completely dry before application!

APPLICATION
Shake the bottle very well before use! Spray 2-3 times on a clean microfiber towel (start with small amounts; only a little product is necessary). Moisten all panels and windows evenly. When applied correctly, you will see a light grey haze on the surface. Polish away the haze using a clean microfiber cloth. Using too much product can cause streaking.

CURING PERIOD
Immediately after polishing away the haze, the surface can be touched. At normal ambient temperature, the sealant is completely cured after approximately 10 minutes.

AFTERCARE
We strongly recommend using our SHRE Pure Shine Shampoo to reactivate the layer and clean at the same time, without leaving a film that could eliminate the hydrophobic effect that the Si-Nano Protect and Si-Nano Vision layer provides. Our reactivating shampoo is environmentally friendly.
SIFX

Interior Sealer - Dirt Barrier
Leather, Fabric and Canvas

Product ID : SIFX5000 5 L / SIFX020L 20 L
Consumption : +/- 250 ml - 500 ml (standard car)
Used for : Car interior protection
Application field : Fabrics, leather and canvas

SIFX invisible sealant creates a breathable and flexible bond with textile fibers and leather surfaces.

- SIFX has an amazing hydrophobic effect to repel water and dirt.
- Fabrics, leather and even carpets stay cleaner and drier longer.
- Spray until the surface is saturated, and let dry for 24 hours.

Lasts up to 12 months.
Conventional car wash products contain polymers and chemical dyes that can eliminate the hydrophobic effect.

SHRE
Multi-Purpose
Pure Shine Shampoo

Product ID : SHRE5000  5 L / SHRE0020L  20 L
Consumption : +/- 18 ml -25 ml (standard car)
Used for : Automatic or manual washing, interior & exterior
Application field : Coated and uncoated cars

SHRE reactivating shampoo is a high-tech shampoo that is specially designed for today’s high-performance car washes.

This shampoo is free from polymers, waxes, and coloring chemicals that can severely degrade the hydrophobic effect that a nano layer provides.

- Pure gloss
- Reactivates nano layers
- Safe to use for interior cleaning
- Dilute 1:500

Easy to apply
Hydrophobic: Water & oil repellent
Anti-water spot
Easy to clean
Stays cleaner longer
Polishing brush
Manual 1:500
Automatic 1:500
Pressure - Impact low
Flow - Angle - Drop medium
Nano Wash adds a glossy, super-hydrophobic layer while washing your car and cuts drying time by 80%.

- Can be used for hand-washing or in automatic car washes and is suitable for coated and uncoated cars.
- Premium grade, high-gloss shampoo, low-foaming to reduce drying stains.
- Features a built-in hydrophobic effect, so glass and paint stays cleaner longer.
- Cleaning intervals and the formation of water spots will be greatly reduced.
- Dries 80% faster, saving time and money.
- Super-hydrophobic surface angle >150°
- Dilute 1:50.

Hydrophobic effect lasts up to 4 weeks.
Bring back the beautiful black luster of your tires.

SITR
Tire Black Coating

Product ID: SITR5000 5 L / SITR020L 20 L
Consumption: +/-30 ml - 40 ml (standard car)

Used for: Tires and rubber trim
Application field: Cars

Finally, a product that gives tires a super long-lasting black shine. This 100% dry-to-the-touch tire shine won’t wash away when it rains or when you clean your car.

- SITR Tire Black is unlike any other product
- SITR Tire Black is a water-based, high-tech nano coating that lasts longer than conventional oil-based or silicone tire dressings.

This durable coating will withstand power washing & harsh chemicals. It cures to a deep shine in less than 10 minutes.

Lasts up to 12 months.

TIRB

Tire & Rubber Restorer

Product ID: TIRB5000 5 L / TIRB020L 20 L
Consumption: +/- 45 ml -50 ml (standard car)
Used for: Tires and rubber
Application field: All cars and motorcycles

This ultimate rubber restorer is based on an optimized UV-resistant formula which restores tires and rubber trim to their best appearance.

- Deeply-penetrating components bring treated surfaces back to their original appearance.
- Highly durable and long-lasting
- Premium finish suitable for tires and all external rubber trim.

Easy to apply with coating sponge
