Your interior can always be like new...

**NANO-CERAMIC** Si06 (Si-Multi Cleaner) bonds while cleaning, creating semi-permanent molecular bonds while imparting a disinfecting hydrophobic nano layer to the surface. If the shower is used daily, we recommend to use it once every 2 weeks. In case you have hard water in your area, we advise to use it once a week. Please note that this sealer helps to make the surface as dry as possible. Remember to dry shower doors after each use to minimize water spots.

**WEEKLY CLEANING** EASY TO APPLY VIA MICROTowel.  
ART.NR SIMCG0KIT/SIMC0250/SIMC1000

**NANO-CERAMIC** Si07 is an invisible, high-tech coating that seals pores with a nano silica layer, which provides a remarkable hydrophobic effect, so surfaces stay drier and cleaner. The coating disappears over time due to abrasion and can last up to 3 years if used in combination with SiMC and our SHRE-Shampoo. Use our Steril Cleaner before application. Easy to apply with a foam pad. Just apply, wait 2 minutes, and gently buff off.

**LAST LONG up to 3 years** EASY TO APPLY CLEAN, RUB IT IN, AND BUFF IT OFF.  
ART.NR Si060KIT

**NANO-CERAMIC** Si07 is an ultra-long-lasting invisible hydrophobic coating which forms near-permanent molecular bonds with the surface in two simple steps: Clean and Apply. Fingerprints can easily be removed with a dry microfiber towel. The surface is more hygienic because the smooth coating keeps bacteria from sticking. The coating has an anti-scratch hardness of H9 and protects the surface against corrosion. (Can be used in showers and on chrome surfaces).

**LAST LONG up to 5 years** EASY TO APPLY CLEAN, RUB IT IN, AND BUFF IT OFF.  
ART.NR Si070KIT

**NANO-CERAMIC** WSRE (Water Spot Remover) is fully biodegradable and safe for your skin. WRSE is made from environmentally friendly acids that can effectively dissolve calcium, magnesium, iron, and lime deposits on glass, chrome, porcelain, marble, and many other materials. We advise adding a little to our SHRE Shampoo when you wash every month. If the mineral deposits are very thick, use WSRE in its undiluted form.

**MONTHLY CLEANING** EASY TO APPLY VIA MICROTowel  
ART.NR WSRE1000

**NANO-CERAMIC** SCRUB (Scrub Pre-treatment) is a gentle but powerful scouring and cleaning compound, suitable for scrubbing glass, chrome, stainless steel, porcelain, marble, and many other materials without scratching the surface.

**YEARLY CLEANING** EASY TO APPLY VIA MICROTowel OR VIA SCRUB PAD.  
ART.NR SCRUB1000

**NANO-CERAMIC** SHRE (Reactivating Pure Shine Shampoo). This shampoo contains no polymers or colors and will not leave a film of chemicals behind on the surface. Conventional chemicals destroy the hydrophobic effect that our nano layer provides. Build-up of unnecessary chemicals can cause serious and permanent coloration damage to all kinds of surfaces. (Color is added to conventional shampoos for marketing purposes only!)

**DAILY CLEANING** EASY TO APPLY VIA MICROTowel  
ART.NR SHRE1000-SHRE5000

NANO-CERAMIC SIGS (Si-Gloss Sealer) bonds while cleaning, forming semi-permanent molecular bonds, and providing a glossy hydrophobic nano layer to the surface. Brings dull, weathered, and damaged surfaces to life. This sealant has a hydrophobic effect, which makes it an ideal product for tabletops, protecting the original surface against water spots.

MONTHLY CLEANING EASY TO APPLY VIA MICRO TOWEL. ART.NR SIGS0250-SIGS1000

NANO-CERAMIC SIO8 transparent sealer connects to the surfaces of natural stone and wood.
Water and dirt are getting less chance to penetrate into the surface. This layer has a remarkable hydrophobic effect that keeps the surface cleaner and drier. And natural stone and wood are protected against the penetration of pollution.

REGULAR MAINTENANCE SPRAY TILL SATURATED AND LET IT DRY ART.NR SIFX1000

NANO-CERAMIC SIFX Transparent Sealer bonds to the surfaces of natural stone and wood.
Water and dirt are effectively repelled by this durable barrier with a remarkable hydrophobic effect that keeps the surface cleaner, drier, and protected against environmental pollutants.

REGULAR MAINTENANCE SPRAY TILL SATURATED AND LET IT DRY ART.NR SIO81000

NANO-CERAMIC SIFP (Si-Floor Protector) is a completely new formula that makes your flooring 2 times harder and more durable. It is so easy to apply. Simply dilute it 1:9 with water. This polish saves time and is easier to apply than other conventional polish compounds because you don’t need to add extra water during polishing. Simply polish the surface until almost dry and remove the haze that forms.

2 MONTHLY POLISHING APPLICATION VIA FLOOR POLISHER ART.No SIFP1000-SIFP05000-SIFP020L

NANO-CERAMIC If your marble floor is too much damaged that it can not be restored till high gloss with our SIFP (Si-Floor Protector), then please call our nearest distributor or a local expert, they will offer you a fix price/m² for regrinding your marble floor using diamond pads. After it is glossy again you can protect and maintain the floor by using SIFP (Si-Floor Protector).

RECOVERY Project CONTACT OUR DEALER

NANO-CERAMIC If the glass is too much affected that it can not be cleaned with our SCRUB or WSRE remover then please call our nearest distributor, they will offer you our fix price/m² to polish the surface in question in a professional way.
