The right chemicals for the right job.

**Stain Remover**
1.32 Gallon  WSRE5000

This fully-biodegradable stain remover is made with a synergistic blend of environmentally friendly acids to boost cleaning performance and cost-savings that is perfect for use on all hard surfaces. Finally, a product that removes mineral deposits and is safe for your skin. Read more on page 4.

**Steril Cleaner**
1.32 Gallon  CLEAN5000

Steril pretreatment cleaner is a 100% sterile mixture that uses new technology to thoroughly prepare hard surfaces to form an enhanced and super-durable bond with our ceramic coatings. Read more on page 5.

**Si-Nano Protect®**
1.32 Gallon  SIPR5000

Si-Nano Protect forms semi-permanent molecular bonds with painted and nano-coated surfaces and is designed to prevent water spots, acting as a glossy protective layer that will last for multiple months with just one application. Read more on page 6.

**Si-Nano Vision®**
5 Gallon  SIVI5000

Si-Nano Vision is an extremely high-tech ceramic sealer that is specially designed for coated and uncoated glass surfaces. Repels water for 30% better visibility in rainy conditions. Read more on page 7.

**Interior Protector “Dirt Barrier”**
1.32 Gallon  SIFX5000

This high-tech protector forms semi-permanent, yet flexible bonds with leather and fabrics, leaving a nanoscale hydrophobic layer to repel dirt and liquids. Just spray the surface until saturated, and let it dry for 24 hours. Read more on page 9.
## Higher profits with no compromises.

WSRE Water Spot and Stain Remover safely dissolves calcium and magnesium stains.

WSRE

Water Spot / Stain Remover
Biodegradable & gentle on skin

Product ID: WSRE5000 1.32 gal / WSRE020L 5 gal
Consumption: +/- 0.007ft²
Used for: Hard surfaces
Application field: Paint, glass, chrome, plastic, carbon fiber

This fully biodegradable stain remover is made with a synergistic blend of environmentally friendly acids to boost cleaning performance and cost-savings. WSRE is suitable for use on glass, steel, porcelain, and many other materials.

- Anti-corrosive and safe to use on all hard surfaces.
- Prevents mineral deposition and dissolves lime scale.
- GHS label: NO health hazard label or acute toxicity
- Readily biodegradable (OECD)
- Safe for all hard surfaces
- Dissolves calcium and magnesium
- Stays cleaner longer

Application: Wet the surface and wait 1 minute so the calcium and magnesium can dissolve. For stubborn buildup, pretreat with our SCRUB cleaner.
Steril pretreatment cleaner is a 100% sterile mixture that uses new technology to thoroughly prepare hard surfaces to form an enhanced and super-durable bond with our ceramic coatings.

- Makes surfaces much easier and quicker to clean and infiltrates the tiniest pores to create maximal grip for high-tech coating and sealing applications
- Degreases and prepares in a single step
- Safe and economical to use
- Won’t discolor materials

NANO-CERAMIC®
THE NEW GENERATION COATINGS
NANO-CERAMIC.COM
Si-Nano Protect Ceramic Sealer

Product ID: SIPR5000 1.32 gal / SIPR020L 5 gal
Thickness: 0.5 Micron
Consumption: +/- 0.4-0.5oz (standard car)
Used for: High gloss & water spot prevention
Application field: Paint, plastic, chrome, carbon fiber

Si-Nano Protect forms semi-permanent molecular bonds with painted and nano-coated surfaces and is designed to prevent water spots, acting as a glossy protective layer that will last for multiple months with just one application.

- Makes surfaces much easier and quicker to clean while reducing the adhesion of dirt and dust.
- Leaves a high-gloss surface behind that features an outstanding hydrophobic effect, staying cleaner longer.
- Cleaning intervals and the formation of water spots will be greatly reduced.
- Can also be used on unlacquered plastic and chrome parts, making the product perfect for all automotive, motorcycle, and scooter applications.
- Works great in engine compartments and to renew dashboard gloss.
- Lasts up to 3 months

How to use:
- See page 8

Easy to apply
Hydrophobic: Water & oil repellent
Anti-water spot
Easy to clean
High gloss
Engine & dash gloss & protection
Car & motorcycle gloss & protection

NANO-CERAMIC®
THE NEW GENERATION COATINGS
NANO-CERAMIC.COM
Si-Nano Vision Ceramic Sealer

Product ID: SIVI5000 1.32 gal / SIVI020L 5 gal
Thickness: 0.5 Micron
Consumption: +/- 0.3 - 0.4 oz (standard car)
Used for: Clear vision & water spot prevention
Application field: Car glass, acrylic

Si-Nano Vision is an extremely high-tech ceramic sealer that is specially designed for coated and uncoated glass surfaces.

- Makes glass much easier and quicker to clean while drastically reducing the adhesion of dirt.
- Has an outstanding hydrophobic effect, so glass stays cleaner longer.
- Reduces cleaning intervals and prevents the formation of water spots.
- Repels water for 30% better visibility in rainy conditions.
- Lasts up to 3 months

How to use:
- See page 8
HOW TO USE:

NANO-CERAMIC Si-Nano Protect, Si-Nano Vision Steril & SHRE

These products can be stored for up to 24 months (in a dry, temperature-stable, dark environment)

**Consumption:**
Appr. 0.4oz - 0.5oz for a standard size car. Not more than 2-3 trigger sprays per panel.

Ambient temperature: 41-86°F
Avoid direct sunlight and/or high humidity.

**IMPORTANT:**
Before you use a NANO-CERAMIC product, please make sure you wear suitable protection gear. We always recommend to use latex or nitrile gloves to make sure your hands are protected.

**Applicator:**

40100703

**CLEANING**

Clean all surfaces thoroughly with SHRE Shampoo, and use our Steril Pretreatment Cleaner as a last step to make sure that all residue and contamination is removed so the Si-Nano Protect and Si-Nano Vision can bind properly with the surface. Make sure that the surface is completely dry before application!

**APPLICATION**

Shake the bottle very well before use! Spray 2-3 times on a clean microfiber towel (start with small amounts; only a little product is necessary). Moisten all panels and windows evenly. When applied correctly, you will see a light grey haze on the surface. Polish away the haze using a clean microfiber cloth. Using too much product can cause streaking.

**CURING PERIOD**

Immediately after polishing away the haze, the surface can be touched. At normal ambient temperature, the sealant is completely cured after approximately 10 minutes.

**AFTERCARE**

We strongly recommend using our SHRE Pure Shine Shampoo to reactivate the layer and clean at the same time, without leaving a film that could eliminate the hydrophobic effect that the Si-Nano Protect and Si-Nano Vision layer provides. Our reactivating shampoo is environmentally friendly.
SIFX

Interior Sealer - Dirt Barrier
Leather, Fabric and Canvas

Product ID: SIFX5000 1.32 / SIFX020L 5 gal
Consumption: +/- 8.5-16oz (standard car)
Used for: Car interior protection
Application field: Fabrics, leather and canvas

SIFX invisible sealant creates a breathable and flexible bond with textile fibers and leather surfaces.

- SIFX has an amazing hydrophobic effect to repel water and dirt.
- Fabrics, leather and even carpets stay cleaner and drier longer.
- Spray until the surface is saturated, and let dry for 24 hours.

Lasts up to 12 months.
Conventional car wash products contain polymers and chemical dyes that can eliminate the hydrophobic effect.

**SHRE**

**Multi-Purpose Pure Shine Shampoo**

- **Product ID**: SHRE5000 1.32 gal / SHRE0020L 5gal
- **Consumption**: +/- 0.6 -0.8oz (standard car)
- **Used for**: Automatic or manual washing, interior & exterior
- **Application field**: Coated and uncoated cars

SHRE reactivating shampoo is a high-tech shampoo that is specially designed for today’s high-performance car washes.

This shampoo is free from polymers, waxes, and coloring chemicals that can severely degrade the hydrophobic effect that a nano layer provides.

- Pure gloss
- Reactivates nano layers
- Safe to use for interior cleaning
- Dilute 1:500

**Easy to apply**

**Hydrophobic:** Water & oil repellent

**Anti-water spot**

**Easy to clean**

**Stays cleaner longer**

**Polishing brush**

- **Pressure - Impact**: low
- **Flow - Angle - Drop**: medium

**Applicator:**

40100703

**Consumption:**

- Manual: 1:500
- Automatic: 1:500

**NANO-CERAMIC®**

THE NEW GENERATION COATINGS

NANO-CERAMIC.COM

NANO-CERAMIC.COM
Nano Wash adds a glossy, super-hydrophobic layer while washing your car and cuts drying time by 80%.

- Can be used for hand-washing or in automatic car washes and is suitable for coated and uncoated cars.
- Premium grade, high-gloss shampoo, low-foaming to reduce drying stains.
- Features a built-in hydrophobic effect, so glass and paint stays cleaner longer.
- Cleaning intervals and the formation of water spots will be greatly reduced.
- Dries 80% faster, saving time and money.
- Super-hydrophobic surface angle >150°
- Dilute 1:50.

Hydrophobic effect lasts up to 4 weeks.
Bring back the beautiful black luster of your tires.

SITR

Tire Black Coating

Product ID: SITR5000 1.32 gal / SITR020L 5 gal
Consumption: +/- 1.5 - 1.7oz (standard car)
Used for: Tires and rubber trim
Application field: Cars

Finally, a product that gives tires a super long-lasting black shine. This 100% dry-to-the-touch tire shine won't wash away when it rains or when you clean your car.

- SITR Tire Black is unlike any other product
- SITR Tire Black is a water-based, high-tech nano coating that lasts longer than conventional oil-based or silicone tire dressings.

This durable coating will withstand power washing & harsh chemicals. It cures to a deep shine in less than 10 minutes.

Lasts up to 12 months.
Protect tires and trim with a long-lasting, durable shine.

**TIRB**

**Tire & Rubber Restorer**

- **Product ID**: TIRB5000 1.32 / TIRB020L 5 gal
- **Consumption**: +/- 1.5 - 1.7 oz (standard car)
- **Used for**: Tires and rubber
- **Application field**: All cars and motorcycles

This ultimate rubber restorer is based on an optimized UV-resistant formula which restores tires and rubber trim to their best appearance.

- Deeply-penetrating components bring treated surfaces back to their original appearance.
- Highly durable and long-lasting and super glossy
- Premium finish suitable for tires and all external rubber trim.

Easy to apply with coating sponge

**Applicator:**

40100602
MPCL Multi-Purpose Interior Cleaner

Product ID: MPCL5000 1.32 gal / MPCL020L 5 gal
Consumption: +/- 0.16oz/ft²
Used for: All surfaces
Application field: Interior use

MPCL Multi-Purpose Cleaner cleans and protects all interior surfaces quickly and easily.

Just spray and wipe to clean and protect interior plastics, vinyl, leather, fabrics, rubber, metal, carbon fiber, wood, audio and video equipment, and even engine compartments.

MPCL Multi-Purpose Cleaner leaves a strong UV protectant to keep surfaces looking like new!

Using an advanced concentrated formula, it cleans the smallest pores to remove stubborn dirt and odors.

- Anti-bacterial
- Anti-odor
- Pleasant scent
