CLOTHING LINE AND ACCESSORIES

Apply our coatings in style, at NANO-CERAMIC we know that presentation is a critical factor.

We have a complete series consisting of: Trousers, t-shirts, polo-shirts, caps, towels, drinking cups, note books and lighters,

RECOMMENDED POLISHING TOOLS

FLEX DA High Speed Polisher
XFE-7-15-150 (5.5 inch Pads)
XFE-7-12-80 (3 inch Pads)

Making natural orbital movements, your polish pad last longer with these machines than by using a long stroke DA machine. As we at NANO-CERAMIC go for maximum durability we recommend these high quality and trustfull machines to you.

POLISHING PREPARATION
**RECOMMENDED POLISH PADS**

Purple Wool Heavy Cutting Pad cuts like natural sheepskin but finishes like a polish pad. Aggressively removes P1500 grit scratches, leaving a lustrous finish with no hazing by reducing compounding swirls.

The Cutting Pad is constructed with a blue foam and white microfiber. The Micro Cutting Pad with orange foam and white microfiber, the Polishing Pad is constructed with a black foam and black microfiber.

The pad serie is available 5.5 inch and 3 inch.

**ONE STEP POLISH 250ml**

Only this High Quality Polish Compound together with the above mentioned pads assure that every car can be polished from deep scratches till high gloss/zero swirl in one single step. This saves an enormous amount on working hours as polishing takes normally 65% of the total process to make a car a nano layer.

**STERIL CLEANER 1L / 5L**

Includes Nano-Colloidal blended surfactant technology what is deeper penetrating and dispersing grease and oils.

Once these substances are broken apart, the grease molecules are encapsulated and lifted away from the surface, allowing them to be removed more easily and what results in a better prepared surface and perfect connection with our high tech nano layers.
