Automotive **Car Wash**

---

## The right chemicals for the right job.

**Stain Remover**  
1.32 Gallon 160x 100x  
WSRE5000

This fully-biodegradable stain remover is made with a synergistic blend of environmentally friendly acids to boost cleaning performance and cost-savings that is perfect for use on all hard surfaces. Finally, a product that removes mineral deposits and is safe for your skin.

**Read more on page 4.**

**Steril Cleaner**  
1.32 Gallon 125x 100x  
CLEAN5000

Steril pretreatment cleaner is a 100% sterile mixture that uses new technology to thoroughly prepare hard surfaces to form an enhanced and super-durable bond with our ceramic coatings.

**Read more on page 5.**

**Si-Nano Protect®**  
1.32 Gallon 825x 663x  
SIPR5000

Si-Nano Protect forms semi-permanent molecular bonds with painted and nano-coated surfaces and is designed to prevent water spots, acting as a glossy protective layer that will last for multiple months with just one application.

**Read more on page 6.**

**Si-Nano Vision®**  
5 Gallon 1250x 825x  
SIVI5000

Si-Nano Vision is an extremely high-tech ceramic sealer that is specially designed for coated and uncoated glass surfaces. Repels water for 30% better visibility in rainy conditions.

**Read more on page 7.**

**Interior Protector "Dirt Barrier"**  
1.32 Gallon 40x 20x  
SIFX5000

This high-tech protector forms semi-permanent, yet flexible bonds with leather and fabrics, leaving a nanoscale hydrophobic layer to repel dirt and liquids. Just spray the surface until saturated, and let it dry for 24 hours.

**Read more on page 9.**

**Stain Remover**  
5 Gallon 640x 400x  
WSRE020L

**Steril Cleaner**  
5 Gallon 250x 200x  
CLEAN020L

**Si-Nano Protect®**  
5 Gallon 1650x 1325x  
SIPR020L

**Si-Nano Vision®**  
5 Gallon 2500x 1650x  
SIVI020L

**Interior Protector "Dirt Barrier"**  
5 Gallon 80x 40x  
SIFX020L

## Higher profits with no compromises.

**Shampoo Pure Shine**  
1.32 Gallon 550x 400x  
SHRE5000

A high-tech shampoo that is specially designed for today's high-performance car washes. This shampoo reactivates protective nano layers, is free from polymers, wax, and coloring chemicals, and is safe to use for interior cleaning.

**Read more on page 10.**

**Nano Wash "Hydrophobic"**  
1.32 Gallon 120x 80x 4 week hydrophobic  
NWA5000 240x 160x 2 week hydrophobic

Nano Wash adds a glossy super-hydrophobic layer while cleaning. It can be used for manual or automatic car washing and is suitable for coated and uncoated cars. It gives customers a true nano experience that lasts 2-4 weeks depending on dilution.

**Read more on page 11.**

**Tire Black Coating**  
1.32 Gallon 50x 25x  
SITR5000

Snow Wash Foam Presoak is a pH-neutral, snow foam with foam booster designed presoak to safely and easily remove dirt and grime from the exterior of vehicles.

**Read more on page 12.**

**Tire & Rubber Gloss Restorer**  
1.32 Gallon 220x 200x  
TIRB5000

This gloss restorer uses an optimized UV-resistant formula to restore tires and rubber trim to their original appearance, providing a protective layer to maintain shine and luster over time.

**Read more on page 13.**

**Multi-Purpose Cleaner**  
1.32 Gallon 550x 413x  
MPCL5000

Multi-Purpose Cleaner is a low-foaming formula that can be used on all interior surfaces to remove dirt and neutralize odors. It cleans effectively and leaves a nice smell behind.

**Read more on page 14.**

**Shampoo Pure Shine**  
5 Gallon 1100x 800x  
SHRE020L

**Nano Wash "Hydrophobic"**  
5 Gallon 240x 160x 4 week hydrophobic  
NWA5020L 480x 320x 2 week hydrophobic

**Tire Black Coating**  
5 Gallon 250x 125x  
SITR020L

**Tire & Rubber Gloss Restorer**  
5 Gallon 440x 400x  
TIRB020L

**Multi Purpose Cleaner**  
5 Gallon 1100x 825x  
MPCL020L

WSRE Water Spot and Stain Remover safely dissolves calcium and magnesium stains.

# WSRE

## Water Spot / Stain Remover Biodegradable & gentle on skin

**Product ID** : WSRE5000 1.32 gal / WSRE020L 5 gal  
**Consumption** : +/- 0.007 ft²  
**Used for** : Hard surfaces  
**Application field** : Paint, glass, chrome, plastic, carbon fiber

This fully biodegradable stain remover is made with a synergistic blend of environmentally friendly acids to boost cleaning performance and cost-savings. WSRE is suitable for use on glass, steel, porcelain, and many other materials.

- Anti-corrosive and safe to use on all hard surfaces.
- Prevents mineral deposition and dissolves lime scale.
- GHS label: NO health hazard label or acute toxicity
- Readily biodegradable (OECD)
- Safe for all hard surfaces
- Dissolves calcium and magnesium
- Stays cleaner longer

Application: Wet the surface and wait 1 minute so the calcium and magnesium can dissolve. For stubborn buildup, pretreat with our SCRUB cleaner.

Safe to use

Non-corrosive

Dissolves calcium and magnesium

Reduces spotting & filming

Stays cleaner longer

Steril cleans every pore for perfect adhesion of ceramic layers.

# CLEAN

## Steril Cleaner Pretreatment

**Product ID** : CLEAN5000 1.32 gal / CLEAN020L 5 gal  
**Consumption** : +/- 2.5 -3.4 ml (standard car)  
**Used for** : Preparation cleaner to open surface pores  
**Application field** : Paint, glass, plastic, chrome, carbon fiber

Steril pretreatment cleaner is a 100% sterile mixture that uses new technology to thoroughly prepare hard surfaces to form an enhanced and super-durable bond with our ceramic coatings.

- Makes surfaces much easier and quicker to clean and infiltrates the tiniest pores to create maximal grip for high-tech coating and sealing applications
- Degreases and prepares in a single step
- Safe and economical to use
- Won't discolor materials

Easy to apply

Degreaser

Easy to clean

Sterile clean

Safe to use

Applicator:

40100703

A hydrophobic, glossy ceramic sealer that protects coated and uncoated cars.

# SIPR

## Si-Nano Protect Ceramic Sealer

**Product ID** : SIPR5000 1.32 gal / SIPR020L 5 gal  
**Thickness** : 0.5 Micron  
**Consumption** : +/- 0.4-0.5 oz (standard car)  
**Used for** : High gloss & water spot prevention  
**Application field** : Paint, plastic, chrome, carbon fiber

Si-Nano Protect forms semi-permanent molecular bonds with painted and nano-coated surfaces and is designed to prevent water spots, acting as a glossy protective layer that will last for multiple months with just one application.

- Makes surfaces much easier and quicker to clean while reducing the adhesion of dirt and dust.
- Leaves a high-gloss surface behind that features an outstanding hydrophobic effect, staying cleaner longer.
- Cleaning intervals and the formation of water spots will be greatly reduced.
- Can also be used on unlacquered plastic and chrome parts, making the product perfect for all automotive, motorcycle, and scooter applications.
- Works great in engine compartments and to renew dashboard gloss.
- Lasts up to 3 months

**How to use:**  
 • See page 8

- Easy to apply**
- Hydrophobic: Water & oil repellent**
- Anti-water spot**
- Easy to clean**
- High gloss**
- Engine & dash gloss & protection**
- Car & motorcycle gloss & protection**

Repels water for 30% better visibility in rainy conditions.

# SIVI

## Si-Nano Vision Ceramic Sealer

**Product ID** : SIVI5000 1.32 gal / SIVI020L 5 gal  
**Thickness** : 0.5 Micron  
**Consumption** : +/- 0.3 - 0.4 oz (standard car)  
**Used for** : Clear vision & water spot prevention  
**Application field** : Car glass, acrylic

Si-Nano Vision is an extremely high-tech ceramic sealer that is specially designed for coated and uncoated glass surfaces.

- Makes glass much easier and quicker to clean while drastically reducing the adhesion of dirt.
- Has an outstanding hydrophobic effect, so glass stays cleaner longer.
- Reduces cleaning intervals and prevents the formation of water spots.
- Repels water for 30% better visibility in rainy conditions.
- Lasts up to 3 months

**How to use:**  
 • See page 8

- Easy to apply**
- Hydrophobic: Water & oil repellent**
- Anti-water spot**
- Easy to clean**
- Stays cleaner longer**
- Better visibility for safe driving**
- Clear visor for clear vision**

Protect and shine dashboards and engine parts with a hydrophobic effect.

Spills are much easier to clean, and the adhesion of dirt is reduced drastically.

## HOW TO USE:

NANO-CERAMIC Si-Nano Protect, Si-Nano Vision Steril & SHRE

These products can be stored for up to 24 months (*in a dry, temperature-stable, dark environment*)

### Consumption:

Appr. 0.4oz - 0.5oz for a standard size car. Not more than 2-3 trigger sprays per panel.

Ambient temperature: 41-86°F  
Avoid direct sunlight and/or high humidity.

### IMPORTANT:

Before you use a NANO-CERAMIC product, please make sure you wear suitable protection gear. We always recommend to use latex or nitrile gloves to make sure your hands are protected.

### Applicator:

40100703

### CLEANING

Clean all surfaces thoroughly with SHRE Shampoo, and use our Steril Pretreatment Cleaner as a last step to make sure that all residue and contamination is removed so the Si-Nano Protect and Si-Nano Vision can bind properly with the surface. Make sure that the surface is completely dry before application!

### APPLICATION

Shake the bottle very well before use! Spray 2-3 times on a clean microfiber towel (start with small amounts; only a little product is necessary). Moisten all panels and windows evenly. When applied correctly, you will see a light grey haze on the surface. Polish away the haze using a clean microfiber cloth. Using too much product can cause streaking.

### CURING PERIOD

Immediately after polishing away the haze, the surface can be touched. At normal ambient temperature, the sealant is completely cured after approximately 10 minutes.

### AFTERCARE

We strongly recommend using our SHRE Pure Shine Shampoo to reactivate the layer and clean at the same time, without leaving a film that could eliminate the hydrophobic effect that the Si-Nano Protect and Si-Nano Vision layer provides. Our reactivating shampoo is environmentally friendly.

# SIFX

## Interior Sealer - Dirt Barrier Leather, Fabric and Canvas

**Product ID** : SIFX5000 1.32 / SIFX020L 5 gal  
**Consumption** : +/- 8.5 -16 oz (standard car)  
**Used for** : Car interior protection  
**Application field** : Fabrics, leather and canvas

SIFX invisible sealant creates a breathable and flexible bond with textile fibers and leather surfaces.

- SIFX has an amazing hydrophobic effect to repel water and dirt.
- Fabrics, leather and even carpets stay cleaner and drier longer.
- Spray until the surface is saturated, and let dry for 24 hours.

Lasts up to 12 months.

Easy to apply

Hydrophobic:  
Water & oil repellent

Easy to clean

Stays cleaner  
longer

Conventional car wash products contain polymers and chemical dyes that can eliminate the hydrophobic effect.

# SHRE

## Multi-Purpose Pure Shine Shampoo

**Product ID** : SHRE5000 1.32 gal / SHRE0020L 5 gal  
**Consumption** : +/- 0.6 -0.8 oz (standard car)  
**Used for** : Automatic or manual washing, interior & exterior  
**Application field** : Coated and uncoated cars

SHRE reactivating shampoo is a high-tech shampoo that is specially designed for today's high-performance car washes.

This shampoo is free from polymers, waxes, and coloring chemicals that can severely degrade the hydrophobic effect that a nano layer provides.

- Pure gloss
- Reactivates nano layers
- Safe to use for interior cleaning
- Dilute 1:500

Easy to apply

Hydrophobic:  
Water & oil repellent

Anti-water spot

Easy to clean

Stays cleaner  
longer

Automatic 1:500

Pressure - Impact low  
Flow - Angle - Drop medium

Applicator:

40100703

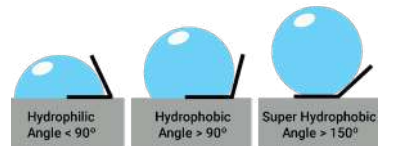

Dries 80% faster with less water spots and leaves a glossy shine and hydrophobic effect that lasts up to 4 weeks.

# NWAS

## Hydrophobic Low Foam Gloss Shine - Nano Wash

**Product ID** : NWAS5000 1.32 gal / NWAS020L 5 gal  
**Consumption** : +/- 2.8 - 4 oz (standard car)  
**Used for** : Water spot protection  
**Application field** : Coated and uncoated cars

Nano Wash adds a glossy, super-hydrophobic layer while washing your car and cuts drying time by 80%.

- Can be used for hand-washing or in automatic car washes and is suitable for coated and uncoated cars.
- Premium grade, high-gloss shampoo, low-foaming to reduce drying stains.
- Features a built-in hydrophobic effect, so glass and paint stays cleaner longer.
- Cleaning intervals and the formation of water spots will be greatly reduced.
- Dries 80% faster, saving time and money.
- Super-hydrophobic surface angle >150°
- Dilute 1:50.

Hydrophobic effect lasts up to 4 weeks.

Easy to apply  
by just washing your car

Conventional car wash products contain polymers and chemical dyes that can eliminate the hydrophobic effect.

# SNOW

## Multi-Purpose Pure Shine Shampoo

**Product ID** : SNOW5000 1.32 gal / SNOW 020L 5 gal  
**Consumption** : +/- 4 - 6.5 oz (25-50 washes standard car)  
**Used for** : Automatic or manual pre-soak wash exterior  
**Application field** : Coated and uncoated cars

Snow Wash Foam Presoak is a pH-neutral, snow foam with foam booster designed presoak to safely and easily remove dirt and grime from the exterior of vehicles.

SNOW features a high-foaming formula that will produce a blanket of foam that sits on the surface and encapsulate dirt particles, pulling them from the paint for safe and easy removal.

- Safe to use for interior cleaning
- Hard water conditions:

Dilute 6.5 oz of product in 27 oz of water  
 (≈ 1 : 4.15 | total solution ≈ 33.5 oz)

- Soft water conditions:

Dilute 4 oz of product in 27 oz of water  
 (≈ 1 : 6.75 | total solution ≈ 31 oz)

- Easy to apply**
- Hydrophobic:  
Water & oil repellent**
- Anti-water spot**
- Easy to clean**
- Stays cleaner longer**

**Applicator:**

40100703

Protect tires and trim with a long-lasting, durable shine.

# TIRB

## Tire & Rubber Restorer

**Product ID** : TIRB5000 1.32 / TIRB020L 5 gal  
**Consumption** : +/- 1.5 - 1.7 oz (standard car)  
**Used for** : Tires and rubber  
**Application field** : All cars and motorcycles

This ultimate rubber restorer is based on an optimized UV-resistant formula which restores tires and rubber trim to their best appearance.

- Deeply-penetrating components bring treated surfaces back to their original appearance.
- Highly durable and long-lasting and super glossy
- Premium finish suitable for tires and all external rubber trim.

- Easy to apply with  
coating sponge**

**Applicator:**

40100602

With proper maintenance, will last 600+ miles

Cleans the smallest pores to remove stubborn dirt and odors.

# MPCL

## Multi-Purpose Interior Cleaner

**Product ID** : MPCL5000 1.32 gal / MPCL020L 5 gal  
**Consumption** : +/- 0.16 oz/ft<sup>2</sup>  
**Used for** : All surfaces  
**Application field** : Interior use

MPCL Multi-Purpose Cleaner cleans and protects all interior surfaces quickly and easily.

Just spray and wipe to clean and protect interior plastics, vinyl, leather, fabrics, rubber, metal, carbon fiber, wood, audio and video equipment, and even engine compartments.

MPCL Multi-Purpose Cleaner leaves a strong UV protectant to keep surfaces looking like new!

Using an advanced concentrated formula, it cleans the smallest pores to remove stubborn dirt and odors.

- Anti-bacterial
- Anti-odor
- Pleasant scent

 **Easy to apply:**  
Spray, wipe, buff off

 **Anti-bacterial**

 **Pleasant scent**

 **Anti-odor**
