Products **Professional Detailing**

CLOTHING LINE AND ACCESSORIES

Apply our coatings in style, at **NANO-CERAMIC®** we understand that presentation is a critical factor.

We have a complete series consisting of: Trousers, t-shirts, polo-shirts, caps, towels, drinking cups, notebooks and lighters.

RECOMMENDED POLISHING TOOLS

FLEX DA High Speed Polisher
XFE-7-15-150 (5.5 inch Pads)
XFE-7-12-80 (3 inch Pads)

By making natural orbital movements, your polish pad lasts longer with these DA (Dual Action) machines than by using a long stroke DA machine. As we at NANO-CERAMIC go for maximum durability we recommend these high quality and trustworthy machines to you.

RECOMMENDED POLISH PADS

Lake Country Force Rotation

Hybrid foam is made specifically with small cells and solid construction to maintain the roughness occurring in chemicals close to the pad surface. These bearings are stronger than other pads, especially developed for durability for the FLEX forced rotation (DA) and rotary engine.

Available in 90 mm/3.5" 140 mm/5.5" 165 mm/6.5"

1 STEP POLISH 250 ml

Seeing is believing with this High Tech One Step Polish Compound you can polish is one step from P1500 Grit sandpaper scratches to Hyper gloss without any swirl-mark or hologram.

STEP0250-250 ml

STERIL CLEANER 250 ml / 1 L / 5 L

Includes Nano-Colloidal blended surfactant technology which provides deeper penetration and dispersing grease and oils.

Once these substances are broken apart, the grease molecules are encapsulated and lifted away from the surface, allowing them to be removed more easily, resulting in a better prepared surface and perfect adhesion to our high tech nano layers.

CLEAN0250 250 ml
CLEAN1000 1 L

CLEAN5000 5 L

COATING SAMPLE KIT 7x5 ml / 7x 20 ml + 4x 60 ml

This sample kit contains all our coatings, applicator set, one step polish compound and is free of charge. We pack the kit in a separate box so it can be shipped as non-dangerous goods. Courier postage must be paid by the recipient.
