RECOMMENDED POLISHING TOOLS

FLEX DA High Speed Polisher
XFE-7-15-150 (5.5 inch Pads)
XFE-7-12-80 (3 inch Pads)

By making natural orbital movements, your polish pad lasts longer with these DA (Dual Action) machines than by using a long stroke DA machine. As we at NANO-CERAMIC go for maximum durability we recommend these high quality and trustworthy machines to you.

RECOMMENDED POLISH PADS

Lake Country Force Rotation

Hybrid foam is made specifically with small cells and solid construction to maintain the roughness occurring in chemicals close to the pad surface. These bearings are stronger than other pads, especially developed for durability for the FLEX forced rotation (DA) and rotary engine.
